		×	9B. DATED (SEE ITEM 11) 3 MAY 2004
			10A. MODIFICATION OF CONTRACTS/ORDER NO. N/A
			10B. DATED (SEE ITEM 13) N/A
CODE	FACILITY CODE		

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☒ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing Items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS, IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

(√)	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☐ is not, ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

SOLICITATION				
NOTE: In sealed bid solicitations "offer" and "offeror" mean "bid" and "bidder".				
10. THE GOVERNMENT REQUIRES PERFORMANCE OF THE WORK DESCRIBED IN THESE DOCUMENTS <i>(Title, identifying no., date):</i> SPEC NO. 1282 : Best Western Dike, Three Rivers, CA and SPEC NO. 9993: Tulare Lakebed Mitigation Site, Corcoran, CA. This procurement involves construction at two sites located approximately one hour apart. BASE: The site is located at Lake Kaweah near the town of Three Rivers, CA, and consists of a 900-foot long earthen dike to protect the Best Western Motel from higher lake elevations. OPTION: The site is near Corcoran, CA, and construction consists of several thousand linear feet of earthen berms dividing a 1,290-acre site into three separate water retention basins (cells). The cells will connect to each other and the adjacent irrigation canals with several reinforced concrete water control structures and gates. This procurement is 100% set-aside for firms under the 8(a) Program located within the geographical area serviced by the SBA in Fresno and San Francisco, CA.				
11. The Contractor shall begin performance within <u> 1 </u> calendar days and complete it within <u> 150 </u> calendar days after receiving <input type="checkbox"/> award, <input checked="checked" type="checkbox"/> notice to proceed. This performance period is <input checked="checked" type="checkbox"/> mandatory, <input type="checkbox"/> negotiable. <i>(See 52.211-10)</i>				
12 A. THE CONTRACTOR MUST FURNISH ANY REQUIRED PERFORMANCE AND PAYMENT BONDS? <i>(If "YES," indicate within how many calendar days after award in Item 12B.)</i> <input checked="checked" type="checkbox"/> YES <input type="checkbox"/> NO			12B. CALENDAR DAYS 4	
13. ADDITIONAL SOLICITATION REQUIREMENTS: A. Sealed offers in original and <u> 0 </u> copies to perform the work required are due at the place specified in Item 8 by <u> 01:00 PM </u> <i>(hour)</i> local time <u> 01 Oct 2004 </u> <i>(date)</i> . If this is a sealed bid solicitation, offers must be publicly opened at that time. Sealed envelopes containing offers shall be marked to show the offeror's name and address, the solicitation number, and the date and time offers are due. B. An offer guarantee <input checked="checked" type="checkbox"/> is, <input type="checkbox"/> is not required. C. All offers are subject to the (1) work requirements, and (2) other provisions and clauses incorporated in the solicitation in full text or by reference. D. Offers providing less than <u> 60 </u> calendar days for Government acceptance after the date offers are due will not be considered and will be rejected.

* QUANTITY IS AN ESTIMATED AMOUNT. SEE SECTION 00700, FAR 52.211-18, FOR VARIATION IN ESTIMATED QUANTITY CONTRACT CLAUSE.

1. Prices must be submitted on all individual items of this Pricing Schedule. Failure to do so may be cause for rejection of bids.

2. If a modification to a price based on unit price is submitted which provides for a lump sum adjustment to the total estimated price, the applications of the lump sum adjustment to each unit price in the Pricing Schedule must be stated. If it is not stated, the bidder/offeror agrees that the lump sum adjustment shall be applied on a pro rata basis to every unit price in the Pricing Schedule.

3. The bidders shall distribute his indirect costs (overhead, profit, bond, etc.) over all the items in the Pricing Schedule. The Government will review all submitted Pricing Schedules for any unbalancing of the items. Any submitted Pricing Schedule determined to be unbalanced may be considered nonresponsive and cause the bidder to be ineligible for award.

4. The lump sum, "LS", line items above are not "estimated quantity" line items and therefore are not subject to the Variation in Quantity contract clause.

5. EFARS 52.214-5000 ARITHMETIC DISCREPANCIES

(a) For the purpose of initial evaluation of bids, the following will be utilized in the resolving arithmetic discrepancies found on the face of Pricing Schedule as submitted by the bidder:

- (1) Obviously misplaced decimal points will be corrected;
- (2) Discrepancy between unit price and extended price, the unit price will govern;
- (3) Apparent errors in extension of unit prices will be corrected;
- (4) Apparent errors in addition of lump-sum and extended prices will be corrected.

(b) For the purpose of bid evaluation, the Government will proceed on the assumption that the bidder intends the bid to be evaluated on basis of the unit prices, the totals arrived at by resolution of arithmetic discrepancies as provided above and the bid will be so reflected on the abstract of bids.

(c) These correction procedures shall not be used to resolve any ambiguity concerning which bid is low.

6. The successful bidder grants the options listed in the Pricing Schedule to the Government. This option may be exercised any time up to 120 days after receipt of Notice to Proceed. Exercise of the option occurs upon mailing of written notice to the Contractor. Exercise will be made by the Contracting Officer. The price for exercise of the option includes all work and effort associated with the scope of that item. For determination of lowest bid, see paragraph titled EVALUATION OF OPTIONS in Section 00100 of this solicitation.

Additional time for contract completion will be allowed when the option is exercised, see section 00700 paragraph 52.211-10.

52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

<http://www.acqnet.gov>

(End of provision)

52.252-3 ALTERATIONS IN SOLICITATION (APR 1984)

Portions of this solicitation are altered as follows: N/A

52.252-5 AUTHORIZED DEVIATIONS IN PROVISIONS (APR 1984)

(a) The use in this solicitation of any Federal Acquisition Regulation (48 CFR Chapter 1) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the provision.

(b) The use in this solicitation of any Department of Defense FAR Supplement (48 CFR Chapter 2) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of provision)

52.217-5 EVALUATION OF OPTIONS (JUL 1990)

Except when it is determined in accordance with FAR 17.206(b) not to be in the Government's best interests, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option.

(End of provision)

- (1) The name of the subcontractor.
- (2) The Contractor's knowledge of the reasons for the subcontractor being on the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.
- (3) The compelling reason(s) for doing business with the subcontractor notwithstanding its inclusion on the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.
- (4) The systems and procedures the Contractor has established to ensure that it is fully protecting the Government's interests when dealing with such subcontractor in view of the specific basis for the party's debarment, suspension, or proposed debarment.

(End of clause)

52.211-10 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)

The Contractor shall be required to (a) commence work under this contract within 1 calendar day after the date the Contractor receives the notice to proceed, (b) prosecute the work diligently, and (c) complete the entire work ready for use not later than *150 calendar days for the Base Item, Schedule 'A' and 150 calendar days for the Option Item, Schedule 'B'*. The time stated for completion shall include final cleanup of the premises.

(End of clause)

52.211-12 LIQUIDATED DAMAGES--CONSTRUCTION (SEP 2000)

- (a) If the Contractor fails to complete the work within the time specified in the contract, the Contractor shall pay liquidated damages to the Government in the amount of \$1040 for each calendar day of delay until the work is completed or accepted.
- (b) If the Government terminates the Contractor's right to proceed, liquidated damages will continue to accrue until the work is completed. These liquidated damages are in addition to excess costs of repurchase under the Termination clause.

(End of clause)

52.211-18 VARIATION IN ESTIMATED QUANTITY (APR 1984)

If the quantity of a unit-priced item in this contract is an estimated quantity and the actual quantity of the unit-priced item varies more than 15 percent above or below the estimated quantity, an equitable adjustment in the contract price shall be made upon demand of either party. The equitable adjustment shall be based upon any increase or decrease in costs due solely to the variation above 115 percent or below 85 percent of the estimated quantity. If the quantity variation is such as to cause an increase in the time necessary for completion, the Contractor may request, in writing, an extension of time, to be received by the Contracting Officer within 10 days from the beginning of the delay, or within such further period as may be granted by the Contracting Officer before the date of final settlement of the contract. Upon the receipt of a written request for an extension, the Contracting Officer shall ascertain the facts and make an adjustment for extending the completion date as, in the judgement of the Contracting Officer, is justified.

52.231-5000 EQUIPMENT OWNERSHIP AND OPERATING EXPENSE SCHEDULE (MAR 1995)–EFARS

(a) This statement shall become operative only for negotiated contracts where cost or pricing data is requested, and for modifications to sealed bid or negotiated contracts where cost or pricing data is requested. This clause does not apply to terminations. See 52.249-5000, Basis for Settlement of Proposals, and FAR Part 49.

(b) Allowable cost for CONSTRUCTION and marine plant and equipment in sound workable condition owned or controlled and furnished by a contractor or subcontractor at any tier shall be based on actual cost data for each piece of equipment or groups of similar serial and series for which the Government can determine both ownership and operating costs from the contractor's accounting records. When both ownership and operating costs cannot be determined for any piece of equipment or groups of similar serial or series equipment from the contractor's accounting records, costs for that equipment shall be based upon the applicable provisions of EP 1110-1-8, CONSTRUCTION Equipment Ownership and Operating Expense Schedule, Region VII. Working conditions shall be considered to be average for determining equipment rates using the schedule unless specified otherwise by the contracting officer. For equipment not included in the schedule, rates for comparable pieces of equipment may be used or a rate may be developed using the formula provided in the schedule. For forward pricing, the schedule in effect at the time of negotiations shall apply. For retroactive pricing, the schedule in effect at the time the work was performed shall apply.

(c) Equipment rental costs are allowable, subject to the provisions of FAR 31.105(d)(ii) and FAR 31.205-36. Rates for equipment rented from an organization under common control, lease-purchase arrangements, and sale-leaseback arrangements, will be determined using the schedule, except that actual rates will be used for equipment leased from an organization under common control that has an established practice of leasing the same or similar equipment to unaffiliated lessees.

(d) When actual equipment costs are proposed and the total amount of the pricing action exceeds the small purchase threshold, the contracting officer shall request the contractor to submit either certified cost or pricing data, or partial/limited data, as appropriate. The data shall be submitted on Standard Form 1411, Contract Pricing Proposal Cover Sheet.

NOTE 1: EP 1110-1-8 is available on the Internet at the following location: <http://www.usace.army.mil/inet/usace-docs/eng-pamphlets/ep.htm>.

NOTE 2: Standard Form 1411 is no longer a current form. The Contracting Officer may require submission of cost or pricing data in the format indicated in Table 15-2 of FAR 15.408, specify an alternative format, or permit submission in the contractor's format. Information other than cost or pricing data may be submitted in the contractor's own format unless the use of a specific format is prescribed elsewhere in this contract.

52.232-5001 CONTINUING CONTRACTS (MAR 1995)

(a) This is a continuing contract, as authorized by Section 10 of the River and Harbor Act of September 22, 1922 (33 U.S. Code 621). The payment of some portion of the contract price is dependent upon reservations of funds from future appropriations and from future contribution to the project having one or more non-federal project sponsors. The responsibilities of the

Government are limited by this clause notwithstanding any contrary provision of the "Payments to Contractor" clause or any other clause of this contract.

(b) The sum of **\$200,000 has been reserved for the Base Item, Schedule 'A', and \$100,000 has been reserved for the Option Item, Schedule 'B'**, and is available for payments to the contractor during the current fiscal year. It is expected that Congress will make appropriations for future fiscal years from which additional funds together with funds provided by one or more non-federal project sponsors will be reserved for this contract.

(c) Failure to make payments in excess of the amount currently reserved, or that may be reserved from time to time, shall not entitle the contractor to a price adjustment under the terms of this contract except as specifically provided in paragraphs (f) and (i) below. No such failure shall constitute a breach of this contract, except that this provision shall not bar a breach-of-contract action if an amount finally determined to be due as a termination allowance remains unpaid for one year due solely to a failure to reserve sufficient additional funds therefore.

(d) The Government may at any time reserve additional funds for payments under the contract if there are funds available for such purpose. The contracting officer will promptly notify the contractor of any additional funds reserved for the contract by issuing an administrative modification to the contract.

(e) If earnings will be such that funds reserved for the contract will be exhausted before the end of any fiscal year, the contractor shall give written notice to the contracting officer of the estimated date of exhaustion and the amount of additional funds which will be needed to meet payments due or to become due under the contract during that fiscal year. This notice shall be given not less than 45 nor more than 60 days prior to the estimated date of exhaustion.

(f) No payments will be made after exhaustion of funds except to the extent that additional funds are reserved for the contract. The contractor shall be entitled to simple interest on any payment that the contracting officer determines was actually earned under the terms of the contract and would have been made except for exhaustion of funds. Interest shall be computed from the time such payment would otherwise have been made until actually or constructively made, and shall be at the rate established by the Secretary of the Treasury pursuant to Public Law 92-41, 85 STAT 97, as in effect on the first day of the delay in such payment.

(g) Any suspension, delay, or interruption of work arising from exhaustion or anticipated exhaustion of funds shall not constitute a breach of this contract and shall not entitle the contractor to any price adjustment under the "Suspension of Work" clause or in any other manner under this contract.

(h) An equitable adjustment in performance time shall be made for any increase in the time required for performance of any part of the work arising from exhaustion of funds or the reasonable anticipation of exhaustion of funds.

(i) If, upon the expiration of sixty (60) days after the beginning of the fiscal year following an exhaustion of funds, the Government has failed to reserve sufficient additional funds to cover payments otherwise due, the contractor, by written notice delivered to the contracting officer at any time before such additional funds are reserved, may elect to treat his right to proceed with the work as having been terminated. Such a termination shall be considered a termination for the convenience of the Government.

(j) If at any time it becomes apparent that the funds reserved for any fiscal year are in excess of the funds required to meet all payments due or to become due the contractor because of work performed and to be performed under the contract during the fiscal year, the Government reserves the right,

after notice to the contractor, to reduce said reservation by the amount of such excess.

52.249-5000 BASIS FOR SETTLEMENT OF PROPOSALS (DEC 1995)

Actual costs will be used to determine equipment costs for a settlement proposal submitted on the total cost basis under FAR 49.206-2(b). In evaluating a termination settlement proposal using the total cost basis, the following principles will be applied to determine allowable equipment costs:

(1) Actual costs for each piece of equipment or groups of similar serial or series equipment need not be available in the Contractor's accounting records to determine total actual equipment costs.

(2) If equipment costs have been allocated to a contract using predetermined rates, those charges will be adjusted to actual costs.

(3) Recorded job costs adjusted for unallowable expenses will be used to determine equipment operating expenses.

(4) Ownership costs (depreciation) will be determined using the Contractor's depreciation schedule (subject to the provisions of FAR 31.205-11).

(5) License, taxes, storage and insurance costs are normally recovered as an indirect expense and unless the Contractor charges these costs directly to contracts, they will be recovered through the indirect expense rate.

52.204-4003 SECURITY REQUIREMENTS FOR UNCLASSIFIED CONTRACTS (MAR 2003)

a. All Contractor employees (U.S. citizens and Non- U.S. citizens) working under this contract (to include grants, cooperative agreements and task orders) who require access to Automated Information Systems (AIS), (stand alone computers, network computers/systems, e-mail) shall, at a minimum, be designated into an ADP-III position (non-sensitive) in accordance with DoD 5220-22-R, Industrial Security Regulation. The investigative requirements for an ADP-III position are a favorable National Agency Check (NAC), SF-85P, Public Trust Position.

b. The contractor shall have each applicable employee complete a SF-85P and submit to the Sacramento District Security Officer within three (3) working days after award of any contract or task order, and shall be submitted prior to the individual being permitted access to an AIS. Contractors that have a commercial or government entity (CAGE) Code and Facility Security Clearance through the Defense Security Service shall process the NACs and forward visit requests/results of NAC to the Sacramento District Security Officer. For those contractors that do not have a CAGE Code or Facility Security Clearance, the Sacramento District Security Office will process the investigation in coordination with the Contractor and contract employees.

c. In accordance with Engineering Regulation, ER 380-1-18, Section 4, foreign nationals who work on Corps of Engineers' contracts or task orders shall be approved by the HQUSACE Foreign Disclosure Officer or higher before beginning work on the contract/task order. This regulation includes subcontractor employees. (NOTE: exceptions to the above requirement include foreign nationals who perform janitorial and/or ground maintenance services.) The contractor shall submit to the Sacramento District Contract Office, the names of all foreign nationals proposed for performance under this contract/task order, along with documentation to verify that he/she was legally admitted into the United States and has authority to work and/or go

to school in the US. Such documentation may include a US passport, Certificate of US citizenship (INS Form N-560 or N-561), Certificate of Naturalization (INS Form N-550 or N-570), foreign passport with I-551 stamp or attached INS Form I-94 indicating employment authorization, Alien Registration Receipt Card with photograph (INS Form I-151 or I-551), Temporary Resident Card (INS Form I-688), Employment Authorization Card (INS Form I-688A), Reentry Permit (INS Form I-327), Refugee Travel Document (INS Form I-571), Employment Authorization Document issued by the INS which contains a photograph (INS Form I-688B).

d. The address and telephone number for the Sacramento District Security Officer is as follows:

U.S. Army Engineer District, Sacramento
 Attn: Security Officer (CESPK-DE-S)
 1325 J Street
 Sacramento, CA 95814-2922
 Tel: (916) 557-6920

e. All transmittals of documentation and other information pertaining to this requirement must be marked with the applicable contract, grant, agreement, and/or task order number and the name of the contracting officer. Additionally, the contracting officer must be notified in writing whenever a SF 85P has been submitted to the Security Officer for processing.

52.204-4004 EMPLOYEE IDENTIFICATION AND FINGERPRINTS (MAY 2003)

If employee identification is required for security or other reasons, the Contractor shall be responsible for furnishing to each employee and for requiring each employee engaged on the work to display such identification as may be approved and directed by the Contracting Officer. All prescribed identification shall immediately be delivered to the Contracting Officer, for cancellation upon the release of any employee. When required by the Contracting Officer, the Contractor shall obtain and submit fingerprints of all persons employed or to be employed on the project.

52.0211.4853 WORK DAYS AND HOURS (APR 1992)

The normal work days and hours for this project will be Monday through Friday, excluding federal holidays, from 8AM to 6PM. Access to the work site may be restricted to these hours and days. Work during other than normal hours and days must be coordinated in advance with the Administrative Contracting Officer.

The Federal holidays are:

New Year's Day	Labor Day
Martin Luther King Day	Columbus Day
Presidents' Day	Veterans' Day
Memorial Day	Thanksgiving
Independence Day	Christmas

52.0215-4101 ALTERNATE STRUCTURED APPROACH TO WEIGHTED GUIDELINE METHOD FOR CONSTRUCTION CONTRACTS (EFARS 15.973-100) (MAY 1995)

The following alternate structured approach shall be used for all fixed-price construction contract actions.

<u>Factor</u>	<u>Rate</u>	<u>Weight</u>	<u>Value</u>
Degree of risk	20		
Relative difficulty of work	15		
Size of job	15		
Period of performance	15		
Contractor's investment	5		
Assistance by Government	5		
Subcontracting	25		
Total	100%		

Based on the circumstances of the procurement action, each of the above factors shall be weighted from .03 to .12 as indicated below. "Value" shall be obtained by multiplying the rate by the weight. The Value column when totaled indicates the fair and reasonable profit percentage under the circumstances of the particular procurement. The profit percentage should be multiplied by the total contract costs, including general and administrative costs.

(1) Degree of risk. Where the work involves no risk or the degree of risk is very small, the weighting should be .03; as the degree of risk increases, the weighting should be increased up to a maximum of .12. Lump sum items shall generally have a higher weight than unit price items; other things to consider include the nature of the work and where it is to be performed. Consider the portion of the work to be done by subcontractors, amount and type of labor included in costs, whether the negotiation is before or after performance of the work, etc. Modifications settled before the fact have much greater risk than those settled after the fact. A weight of .03 is appropriate for after the fact equitable adjustments and/or settlements.

(2) Relative Difficulty of Work: If the work is difficult and complex, the weight should be .12 and should be proportionately reduced to .03 on the simplest of jobs. This factor is tied in to some extent with the degree of risk. Some other things to consider are the nature of the work, by whom it is to be done (i.e., subcontractors, consultants), what is the time schedule.

(3) Size of Job. Work of \$100,000 or less shall be weighted at .12. Work estimated between \$100,000 and \$5,000,000 shall be proportionately weighted from .12 to .05. Work from \$5,000,000 to \$10,000,000 shall be weighted at .04. Work in excess of \$10,000,000 shall be weighted at .03. It should be noted that control of fixed expenses generally improves with increased job magnitude.

(4) Period of Performance. Work not to exceed one month is to be proportionately weighted at .03. Durations between one month and 24 months are to be proportionately weighted between .03 and .12. Work in excess of 24 months is to be weighted at .12.

(5) Contractor's Investment. To be weighted from .03 to .12 on the basis of below average, average and above average. Things to consider include amount of subcontracting, Government-furnished property or data such as surveys, soil tests, method of making progress payments, and any mobilization payment items.

(6) Assistance by Government. To be weighted from .12 to .03 on the basis of average to above average. Consider use of Government-owned property, equipment and facilities, and expediting assistance.

(7) Subcontracting. To be weighted inversely proportional to the amount of subcontracting. Where 80% or more of the work is to be subcontracted use .03. The weighting should be increased proportionately to .12 where all the work is performed by the contractor's own forces.

52.0219-4509 SUBCONTRACTING WITH SMALL, SMALL DISADVANTAGED AND WOMEN-OWNED SMALL BUSINESSES (OCT 1999)

Contractors are cautioned that failure of any Contractor to comply in good faith with the contract clauses pertaining to (1) Utilization of Small Business Concerns or (2) Small, Small Disadvantaged and Women-Owned Small Business Subcontracting Plans, when applicable, will be a material breach of contract. In order to assist contractors in developing a source list of small, small disadvantaged and/or women-owned small business concerns you are encouraged to contact your minority contractor associates, the local Minority Business Development Agency and the appropriate General Business Service Centers in your Standard Metropolitan Statistical Area. Contractors may obtain addresses of these sources from:

Write: US Army Engineer District, Sacramento
ATTN: Contracting Division, Deputy for Small Business
1325 J Street, 8th Floor
Sacramento, California 95814-2922

Or Contact: Ms. Michelle Stratton
Deputy for Small Business
Telephone: (916) 557-7641

52.0219-4811 SMALL BUSINESS ADMINISTRATION REQUIREMENT (JUL 1993)

A copy of the acceptance document and a copy of the final payment document will be provided to the Small Business Administration (SBA).

52.0223-4803 HAZARDOUS MATERIALS DELIVERED UNDER THIS CONTRACT (MAY 1993)

(a) If any hazardous materials will be delivered under this contract (see Section 00600, FAR 52.223-3, and DFARS 252.223-7001), the Material Safety Data Sheets (MSDS) for locally purchased, nonstandard stock hazardous material will be submitted to the Corps of Engineers Contracting Officer or Contracting Officer's Representative. For all other materials, the MSDS will also be submitted to U.S. Army Environmental Hygiene Agency, ATTN: HSE-OI, Aberdeen Proving Grounds MD 21010.

(b) Hazardous material is defined in Federal Standard No. 313, sold by the General Services Administration Specifications Unit (3FBP-W), 7th & D Streets, SW, Washington DC 20407.

52.0228-4502 MINIMUM INSURANCE REQUIRED (MAY 1993)

The contract clause, FAR 52.228-5, applies to this contract even if the work or any portion of the work is not performed on a Government installation. In accordance with FAR 52.228-5 and FAR 28.307-2, the contractor shall procure and thereafter maintain during the entire period of this performance under this contract the following minimum insurance.

TYPE	AMOUNT
Worker's Compensation and Employer's Liability	Comply with Federal and State worker's comp and occupational disease statutes. Employer's liability of at least \$100,000
General Liability (Comprehensive)	Bodily injury liability of at least \$500,000 per occurrence.
Automobile Liability (Comprehensive):	
Bodily Injury	At least \$200,000 per person
&	and \$500,000 per occurrence.
Property Damage	At least \$20,000 per occurrence.
Longshoremen's and Harbor Worker's Compensation (When applicable by location of contract performance)	Coverage complying with applicable Federal statute (33 USC 901 et seq).

52.0232-4501 INVOICES (AUG 1991)

The Government shall pay the Contractor upon submission of proper invoices for supplies delivered and accepted or services rendered and accepted for the portion of work actually performed under this contract. Invoices will be submitted in quadruplicate to the address in Block 26, SF1442, which will be completed at time of award. Invoices shall be submitted on ENG Form 93 which will be provided to the Contractor by the Government

52.236-4001 AS-BUILT DRAWINGS (PROGRESS PAYMENT) (OCT 1998)

One-half of one percent of construction award money shall be withheld until the final as-built drawings and CADD files are accepted by the Government.

52.0236-4584 CONTRACTOR-PROVIDED UTILITIES (APR 1992)

All utilities used in the performance of the work shall be furnished and paid for by the Contractor. The Contractor, at the Contractor's expense, and in a workmanlike manner satisfactory to the Contracting Officer, shall install and maintain all necessary temporary connections and distribution lines and the Contractor shall remove the same prior to final acceptance of the construction.

52.0236-4801 SALVAGE AND SCRAP GOVERNMENT PROPERTY (OCT 1993)

(a) "Government property" means all property owned by or leased to the Government or acquired by the Government under the terms of the contract. It includes both Government-furnished property and contractor-acquired property.

(b) "Salvage" means Government property in possession of a contractor, including subcontractors, that, because of its worn, damaged, deteriorated, or incomplete condition or specialized nature, has no reasonable prospect of sale or use as serviceable property without major repairs, but has some value in excess of its scrap value.

(c) "Scrap" means Government personal property that has no value except for its basic material content.

(d) In accordance with FAR 45.505-8 the Contractor shall maintain records of all scrap and salvage generated from this contract. The Contractor's records shall contain the following information:

- (1) Contract Number
- (2) Description of salvageable items or classification (material content) of scrap
- (3) Quantity on hand

(e) The Contractor shall provide final accounting and disposition recommendations of all Government property not consumed in performing this contract or delivered to the Government including salvage and scrap. The Government will review the Contractor's records and shall cause correction if the Government disagrees with the classification of items as salvage or scrap. The Contractor shall dispose of the items as directed by the Contracting Officer. Items designated as scrap (agreed to by the Contracting Officer) shall be retained by the Contractor; its disposition shall be the responsibility of the Contractor. See Specification Section 01505, paragraph entitled "Scrap Material". Items designated as salvageable items (agreed to by the Contracting Officer) shall be turned over to the Government.

-- End of Section Table of Contents --

SECTION 02000

MOBILIZATION AND DEMOBILIZATION

PART 1 GENERAL

1.1 SCOPE

Mobilization shall consist of preparatory work and operations including, but not limited to , those necessary for the movement of personnel, equipment, supplies, and incidentals to the project site; for the establishment of all facilities necessary for work on the project, and for all other work and operations which must be performed, or costs incurred prior to beginning work on the various Contract items on the project site. Demobilization shall consist of work and operations necessary to disband all mobilized items.

1.1.1 Temporary Office

This section includes requirements for providing a minimum of 400 square feet of temporary air conditioned and lighted office and meeting room facilities complete with furniture, telephone, utilities, drinking water, toilets, adjacent vehicle parking areas and other related facilities and services for Contracting Officer.

1.2 CONTRACTOR RESPONSIBILITY

The Contractor shall be responsible for furnishing all labor, equipment, supplies, and materials necessary to perform all operations required for establishing, maintaining, and providing security of the staging areas for the duration of the project.

1.3 STAGING AREAS

The staging area for the contract will be located with the boundaries of the site identified on Sheet G1.3. By making the site available to the Contractor, the Kaweah Delta Water Conservation District, the Contracting Officer, the Corcoran Irrigation District or any other agency associated with the properties shall not be responsible or liable for theft or vandalism occurring on the property, or any activity of the Contractor, Subcontractors, or any individual or organization connected with the project.

1.3.1 Staging Area Maintenance

All staging areas used by the contractor shall be enclosed by temporary chain-link fence. Upon completion of work, the contractor shall restore the area back to original condition. The Contractor shall be responsible for cleanup of all staging areas of construction debris. Final restoration of the staging area must be approved by the Contracting officer.

1.4 SPECIAL REQUIREMENTS

Contractor shall comply with all other applicable provisions of these specifications, including but not limited to restoration of landscape to

original conditions. The Contractor shall rip and disc staging areas and contractor constructed haul roads to break up construction operation compaction prior to erosion control. The Contractor shall restore existing haul roads to its original condition or as directed by the Contracting Officer.

To minimize erosion and disturbance of the existing terrain, the Contractor shall limit vehicle travel within the mitigation site to the existing roads or to areas immediately adjacent to work locations. In no instance, shall vehicles be allowed to traverse across undisturbed areas of the site or within individual cells.

1.4.1 Access to Well Ditches and Canals

The Contractor shall not interfere with the irrigation water delivery system in or around the site except as defined under this section. Prior to construction, the Contractor shall meet with the Contracting Officer and the Corcoran Irrigation District (CID) to schedule all work involving canals, ditches, and wells. This schedule shall be included within the Contractor's required schedule of work. All changes to this schedule shall be in writing and approved by the Contracting Officer and the CID. When possible, and if the proposed change in schedule will not interfere with the CID water deliveries, the CID will cooperate with the Contractor in all proposed schedule changes. In the event that the CID has changes in their water delivery schedule which will interfere with the work of the Contractor, the Contracting Officer and CID will notify the Contractor at least 5 calendar days in advance and the Contractor shall make the necessary modification to his work schedule. In the event that a major storm might require the use of the East and West Branches of the Lakeland Canal and the Sweet Canal, the Contractor will be notified by the Contracting Officer with a minimum of two days notice.

Water will always be present in the East and West Branches of the Lakeland Canal as well as the Sweet Canal. The contractor shall use native soil to construct cofferdams where necessary but only during time periods specified below. With the exception of the pump station discharge piping, cofferdams shall not extend into the canal more than 25% of the canal width. The contractor shall be responsible for dewatering areas protected by the cofferdams and shall remove the dams as soon as possible after work requiring the cofferdam is completed. ~~Due to high water elevations and flows during the summer and early fall, no work in the canals shall take place until after 1 October 2003.~~

Specific work restrictions on project features are as follows:

Outlet Structure (Pump Station) - The Corcoran Irrigation District (CID) will lower the water in the Sweet Canal for four days ~~during the month of October~~ to allow the contractor to install the 24" discharge piping and 42" 36"-tee in the center of the canal. The contractor should anticipate ~~some~~ residual water will remain in the canal and that a ~~small~~ cofferdam will ~~still~~ be required in this area. The Contracting Officer and CID will provide the contractor with the dates of this four-day window ~~during the late summer when irrigation needs and requirements are better known.~~

Lower Well Ditch - The Lower Well Ditch affects the control structure between Cell II and Cell III, and the well ditch control structure at the Sweet Canal. One well provides water to this ditch. The ditch can be drained for a maximum 14-calendar day period at any point during the

construction period to accommodate the contractor's schedule. The CID shall shut off the well during this period. The contractor shall perform all work that requires draining the ditch during this 14-day period. The contractor shall notify the Contracting Officer and CID 5 days prior to the date needed for construction. The connection to the Sweet Canal shall be made at the same time as the Sweet Canal is lowered for installation of the outlet structure piping.

Upper Well Ditch - The Upper Well Ditch is a main ditch. Several wells provide water to this ditch. The Upper Well Ditch affects the well ditch cross culvert, the control structure between Cell I and Cell II, and the well ditch control structure at the West Branch of the Lakeland Canal. In addition, the current ditch location conflicts with the new-elevated pads to be constructed at Well #14 and Well #19. At Wells #14 and #19, the contractor shall relocate the Upper Well Ditch southward to avoid the new-elevated pads. Relocation of Upper Well Ditch to construct the new pads can occur anytime during the construction period but must be done without interrupting water flow in the ditch.

The CID will provide a 7-calendar day shutdown of the Upper Well Ditch to install the cross culvert and control structures will be made after October 1. The contractor shall notify the Contracting Officer and CID 5 days prior to the date needed for construction.

East Branch and West Branch Inlet Structures on the Lakeland Canal - ~~Tie-in of the East Branch and West Branch Inlet Structures shall be made after October 1.~~ The CID will provide a 7 calendar day window for each structure.

The contractor will be required to construct cofferdams for these structures, however, only one cofferdam may be in place during any one time. The Contractor shall notify the CID 5 days prior to the date needed for construction.

1.4.2 Power to Pump Station

The contractor shall complete new levee construction between the pump station and the north end of the Sweet Canal prior to September 15, 2003 as soon as possible to enable PG&E to construct the line extension to the pump station. The power company has been scheduled to place the new power poles and wire for the pump station in this location after the required levees in this area have been completed. The Contractor shall coordinate with PG&E in scheduling their work. September 15

1.4.3 Flooding

In the event of potential flooding of the site and at the direction of the Contracting Officer, the Contractor shall remove all vehicles and other mobile equipment, fuels and soluble materials within four (4) hours of notification.

1.4.4 Site Grading

If site grading is performed at the staging area, the site will be restored at completion of work in accordance with one of the following:

- a) Restored to its original grade.

- b) Restored in accordance with guidance from the Contracting Officer.

1.4.5 Construction Water

The CID will allow the Contractor to pump water from one or more locations in the canal and ditches for the construction of the levee and other project uses. The location of the Contractor's facilities is subject to approval of the Contracting Officer and CID and shall not interfere with the operations of the CID. At the completion of construction, the Contractor shall remove all equipment and return the site to pre-project conditions. The Contractor shall make arrangements for water directly with CID. Anticipated cost for water is \$75 per acre-foot. Any site water used for concrete batching shall be tested to insure it meets applicable ASTM or ACI standards for concrete batch water. Text

1.5 SUBMITTALS

Government approval is required for submittals with a "G" designation; submittals having no designation are for information only. The following shall be submitted in accordance with Section 01330 SUBMITTAL PROCEDURES:

SD-01 Preconstruction Submittals

Work Plan; G.

Before starting the work, the Contractor shall submit to the Contracting Officer a Work Plan identifying his requirements for space for temporary structures, location and approximate size of mobile and stationary equipment, storage of materials (hazardous and non-hazardous), as well as storage of hazardous waste. The Contractor shall also submit to the Contracting officer a proposed plan and layout for all temporary offices, sanitary facilities, storage buildings, storage yards, temporary water service and distribution, and temporary power service and distribution, as required for the project. Should the Contractor require space in addition to that available on-site, the Contractor shall make arrangements for

storage of materials and equipment in locations off the construction site at the Contractors own expense.

1.6 MEASUREMENT AND PAYMENT

Measurement and payment for mobilization and demobilization, staging area and for all other work covered by this section of the specifications shall be made at the contract lump-sum price for "Mobilization and Demobilization" which payment shall constitute full compensation for all work covered by this section of the specifications, as shown on the drawings and as specified by the Contracting Officer.

PART 2 PRODUCTS

2.1 MATERIALS AND EQUIPMENT

2.1.1 Field Office Building for Contractor

Paragraph 2.1.1 is not used.

2.1.2 Building Requirements

Paragraph 2.2.2 is not used.

2.2 FIELD OFFICE BUILDING FOR THE CONTRACTING OFFICER

The Contractor shall supply and maintain a lockable field office for the use of the Contracting Officer. It shall consist of on-site office space or a trailer or sections of trailers or equivalent placed on concrete blocks and leveled and provided with adequate steps at each exterior door. The trailer and its associated equipment shall be new or recently renovated to a like new condition.

2.2.1 Office Space or Trailer Equipment

The office space or trailer provided will have a minimum of 400 square feet (10' by 40') and shall be equipped with the following as a minimum:

1. Lighting: Electric light, non-glare type luminaries to provide a minimum illumination level for reading and working at desk height.
2. Heating and Cooling: Adequate equipment to maintain an ambient air temperature of approximately plus or minus 3 degrees fahrenheit.
3. Water Closet and Lavatory: A separately enclosed room or separate unit properly ventilated and complying with applicable sanitary codes including hot and cold water or temporary toilets.
4. Fire Extinguisher: Non-toxic, dry chemical, meeting Underwriters Laboratories, Inc., approved for Class A, Class B, and Class C fires with a minimum rating of 2A, 10B, AND 10C.
5. Janitorial services at least bi-weekly.
6. Sufficient supply of electrical outlets 110 V.
7. Two partitioned offices each having a minimum of 100 square feet of floor area. Each office shall have at least one (1) operable window and shall be supplied with the following equipment:

- a) Office desk (30 inch by 60 inch) with lockable drawers, swivel chair with arms, and table (30 inch by 60 inch) laminated top.
- b) Three separate telephone lines shall be made available, one for communications, one for a fax machine, and a third for a computer line,
- c) Fire resistant, two-drawer, lockable, legal size filing cabinet.
- d) Drawing tables, two sloped surface drawing tables for drawing layout, waist high, about 3-ft wide by 5-ft long, with a raised strip along the lower edges.
- e) Waste basket.

8. One partitioned meeting area having a minimum of 200 square feet, (10' by 20') of floor area. The meeting area shall contain the following equipment:

- a) One (1) office table with laminated top.
- b) Eight (8) straight-backed chairs.
- c) A dry/erase type Bulletin board, attachable to wall.
- d) Waste basket.
- e) Vertical filing rack for one set of "D" size drawings (22" x 33" plans).
- f) Bottled drinking water dispenser with hot and cold taps. Water shall be supplied as needed.
- g) Dry erase board.

2.3 MATERIAL STORAGE

Provide buildings or shelters at site as required for storage of hazardous and non-hazardous materials as well as storage of hazardous waste for protection against the elements, theft or other damage. The buildings shall be of sufficient size and so arranged or partitioned to provide security for their contents and provide ready access for inspection and inventory.

2.3.1 Subcontractors Storage

Subcontractors may provide temporary buildings or shelters for storage and protection of their materials.

2.4 TELEPHONE/FAX

Provide telephone services for the entire contract period; the telephone/fax shall be accessible to all personnel connected with the work for the purpose of making local calls. At completion, disconnect temporary connections at site.

2.5 DRINKING WATER

Provide drinking water for all personnel connected with the work. Pipe or

transport water in such a manner as to keep it clean and fresh. Serve from single service containers with paper cups or sanitary drinking fountains.

2.6 WATER FOR CONSTRUCTION PURPOSE

Provide clean, potable water as required for the work. At completion, disconnect temporary connections from site.

2.7 TEMPORARY TOILETS

Provide adequate chemical toilet facilities for all individuals connected with the work, in number as required by Federal and State Safety and Occupational Standards. Keep in sanitary condition. Remove at completion of construction and disinfect premises.

2.8 ELECTRICAL LIGHT AND POWER

Provide temporary light and power service as required for the work and to inhibit vandalism. Provide safety switches and wiring into buildings and all required extension cords, lighting outlets, power outlets (grounded type), lamps and other equipment and accessories necessary for adequate temporary lighting and power for construction purposes. Remove temporary lighting and power and their connections at completion of the work.

2.9 SITE CLEANUP AND DISPOSAL OF RUBBISH

Maintain the construction site including staging and building areas in a neat, orderly condition throughout the duration of this Contract. Remove from the site all rubbish, debris, and materials not to be incorporated into the work and all other accumulations that may result from work under this Contract.

2.10 BARRICADES AND PROTECTION

Provide barricades, temporary fencing, handrails, shoring and other devices required by law and as necessary to protect new construction and materials and to protect all persons on the job site.

PART 3 EXECUTION

3.1 REQUIREMENTS

The Contractor shall furnish, install, service and maintain for the duration of the project the material and equipment as described in paragraph 1.2 of this section.

3.1.1 Codes

All facilities installed under this section shall meet the requirements of local, state, and national codes.

SECTION 02000

MOBILIZATION AND DEMOBILIZATION
02/91

PART 1 GENERAL

1.1 SCOPE

Mobilization shall consist of preparatory work and operations including, but not limited to , those necessary for the movement of personnel, equipment, supplies, and incidentals to the project site; for the establishment of all facilities necessary for work on the project, and for all other work and operations which must be performed, or costs incurred prior to beginning work on the various Contract items on the project site. Demobilization shall consist of work and operations necessary to disband all mobilized items. ~~The contractor should not anticipate mobilizing and beginning work at the Best Western site until July 1 due to the high lake level. Access to and use of Borrow Site No. 3 should not be expected until after September 1. These dates will be reviewed during site visit.~~

1.1.1 Temporary Office

This section includes requirements for providing a minimum of 400 square feet of temporary air conditioned and lighted office and meeting room facilities complete with furniture, telephone, utilities, drinking water, toilets, adjacent vehicle parking areas and other related facilities and services for Contracting Officer.

1.2 CONTRACTOR RESPONSIBILITY

The Contractor shall be responsible for furnishing all labor, equipment, supplies, and materials necessary to perform all operations required for establishing, maintaining, and providing security of the staging areas for the duration of the project.

1.3 STAGING AREAS

The staging area for the contract will be located with the boundaries of the site identified on Sheet C500. By making the site available to the Contractor, the Kaweah Delta Water Conservation District, the Contracting Officer, or any other governmental agency associated with the property shall not be responsible or liable for theft or vandalism occurring on the property, or any activity of the Contractor, Subcontractors, or any individual or organization connected with the project.

1.3.1 Staging Area Maintenance

All staging areas used by the contractor shall be enclosed by temporary chain-link fence. Upon completion of work, the contractor shall restore the area back to original condition. The Contractor shall be responsible for cleanup of all staging areas of construction debris. Final restoration of the staging area must be approved by the Contracting officer.

1.4 SPECIAL REQUIREMENTS

Contractor shall comply with all other applicable provisions of these specifications, including but not limited to restoration of landscape to original conditions. The Contractor shall rip and disc staging areas and contractor constructed haul roads to break up construction operation compaction prior to erosion control. The Contractor shall restore existing haul roads to its original condition or as directed by the Contracting Officer. In accordance with California Department of Transportation (CALTRANS) requirements, the contractor shall provide all necessary traffic control along Highway 198 to insure the safe prosecution of all construction activities.

There is an approximately 1 in 15 chance that river flows in the Kaweah River may temporarily rise during the construction period. This could cause water to encroach onto the construction site. The contractor shall anticipate this possibility and be prepared to protect the site or new work and, if necessary, to cease operations for several days. A time extension may be granted in accordance with the weather delay provisions of the contract but no additional costs associated with flooding of the site shall be paid by the Government.

1.4.1 Flooding

In the event of potential flooding of the site and at the direction of the Contracting Officer, the Contractor shall remove all vehicles and other mobile equipment, fuels and soluble materials within four (4) hours of notification.

1.4.2 Site Grading

If site grading is performed at the staging area, the site will be restored at completion of work in accordance with one of the following:

- a) Restored to its original grade.
- b) Restored in accordance with guidance from the Contracting Officer.

1.5 SUBMITTALS

Government approval is required for submittals with a "G" designation; submittals having no designation are for information only. The following shall be submitted in accordance with Section 01330 SUBMITTAL PROCEDURES:

SD-01 Preconstruction Submittals

Work Plan; G.

Before starting the work, the Contractor shall submit to the Contracting Officer a Work Plan identifying his requirements for space for temporary structures, location and approximate size of mobile and stationary equipment, storage of materials (hazardous and non-hazardous), as well as storage of hazardous waste. The Contractor shall also submit to the Contracting officer a proposed plan and layout for all temporary offices, sanitary facilities, storage buildings, storage yards, temporary water service and distribution, and temporary power service and distribution, as required for the project. Should the Contractor require space in addition to that available on-site, the Contractor shall make arrangements for

storage of materials and equipment in locations off the construction site at the Contractors own expense.

1.6 MEASUREMENT AND PAYMENT

Measurement and payment for mobilization and demobilization, staging area and for all other work covered by this section of the specifications shall be made at the contract lump-sum price for "**Mobilization and Demobilization**" which payment shall constitute full compensation for all work covered by this section of the specifications, as shown on the drawings and as specified by the Contracting Officer.

PART 2 PRODUCTS

2.1 MATERIALS AND EQUIPMENT

2.1.1 Field Office Building for Contractor

Paragraph 2.1.1 is not used.

2.1.2 Building Requirements

Paragraph 2.2.2 is not used.

2.2 FIELD OFFICE BUILDING FOR THE CONTRACTING OFFICER

The Contractor shall supply and maintain a lockable field office for the use of the Contracting Officer. It shall consist of on-site office space or a trailer or sections of trailers or equivalent placed on concrete blocks and leveled and provided with adequate steps at each exterior door. The trailer and its associated equipment shall be new or recently renovated to a like new condition.

2.2.1 Office Space or Trailer Equipment

The office space or trailer provided will have a minimum of 400 square feet (10' by 40') and shall be equipped with the following as a minimum:

1. Lighting: Electric light, non-glare type luminaries to provide a minimum illumination level for reading and working at desk height.
2. Heating and Cooling: Adequate equipment to maintain an ambient air temperature of approximately plus or minus 3 degrees fahrenheit.
3. Water Closet and Lavatory: A separately enclosed room or separate unit properly ventilated and complying with applicable sanitary codes including hot and cold water or temporary toilets.
4. Fire Extinguisher: Non-toxic, dry chemical, meeting Underwriters Laboratories, Inc., approved for Class A, Class B, and Class C fires with a minimum rating of 2A, 10B, AND 10C.
5. Janitorial services at least bi-weekly.
6. Sufficient supply of electrical outlets 110 V.
7. Two partitioned offices each having a minimum of 100 square feet of floor area. Each office shall have at least one (1) operable window and shall be supplied with the following equipment:

- a) Office desk (30 inch by 60 inch) with lockable drawers, swivel chair with arms, and table (30 inch by 60 inch) laminated top.
- b) Three separate telephone lines shall be made available, one for communications, one for a fax machine, and a third for a computer line,
- c) Fire resistant, two-drawer, lockable, legal size filing cabinet.
- d) Drawing tables, two sloped surface drawing tables for drawing layout, waist high, about 3-ft wide by 5-ft long, with a raised strip along the lower edges.
- e) Waste basket.

8. One partitioned meeting area having a minimum of 200 square feet, (10' by 20') of floor area. The meeting area shall contain the following equipment:

- a) One (1) office table with laminated top.
- b) Eight (8) straight-backed chairs.
- c) A dry/erase type Bulletin board, attachable to wall.
- d) Waste basket.
- e) Vertical filing rack for one set of "D" size drawings (22" x 33" plans).
- f) Bottled drinking water dispenser with hot and cold taps. Water shall be supplied as needed.
- g) Dry erase board.

2.3 MATERIAL STORAGE

Provide buildings or shelters at site as required for storage of hazardous and non-hazardous materials as well as storage of hazardous waste for protection against the elements, theft or other damage. The buildings shall be of sufficient size and so arranged or partitioned to provide security for their contents and provide ready access for inspection and inventory.

2.3.1 Subcontractors Storage

Subcontractors may provide temporary buildings or shelters for storage and protection of their materials.

2.4 TELEPHONE/FAX

Provide telephone services for the entire contract period; the telephone/fax shall be accessible to all personnel connected with the work for the purpose of making local calls. At completion, disconnect temporary connections at site.

2.5 DRINKING WATER

Provide drinking water for all personnel connected with the work. Pipe or

transport water in such a manner as to keep it clean and fresh. Serve from single service containers with paper cups or sanitary drinking fountains.

2.6 WATER FOR CONSTRUCTION PURPOSE

Provide clean, potable water as required for the work. At completion, disconnect temporary connections from site. Water from the Kaweah River is available through the Kaweah River through the Kaweah Delta Water Conservation District.

2.7 TEMPORARY TOILETS

Provide adequate chemical toilet facilities for all individuals connected with the work, in number as required by Federal and State Safety and Occupational Standards. Keep in sanitary condition. Remove at completion of construction and disinfect premises.

2.8 ELECTRICAL LIGHT AND POWER

Provide temporary light and power service as required for the work and to inhibit vandalism. Provide safety switches and wiring into buildings and all required extension cords, lighting outlets, power outlets (grounded type), lamps and other equipment and accessories necessary for adequate temporary lighting and power for construction purposes. Remove temporary lighting and power and their connections at completion of the work.

2.9 SITE CLEANUP AND DISPOSAL OF RUBBISH

Maintain the construction site including staging and building areas in a neat, orderly condition throughout the duration of this Contract. Remove from the site all rubbish, debris, and materials not to be incorporated into the work and all other accumulations that may result from work under this Contract.

2.10 BARRICADES AND PROTECTION

Provide barricades, temporary fencing, handrails, shoring and other devices required by law and as necessary to protect new construction and materials and to protect all persons on the job site.

PART 3 EXECUTION

3.1 REQUIREMENTS

The Contractor shall furnish, install, service and maintain for the duration of the project the material and equipment as described in paragraph 1.2 of this section.

3.1.1 Codes

All facilities installed under this section shall meet the requirements of local, state, and national codes.

FOOTNOTE: Work suspended by ropes or cables, or work on a Yo-Yo Cat: \$.60 per hour additional.

POWER EQUIPMENT OPERATOR CLASSIFICATIONS

GROUP 1: Operator of helicopter (when used in erection work); Hydraulic excavator, 7 cu. yds. and over; Power shovels, over 7 cu. yds.

GROUP 2: Highline cableway; Hydraulic excavator, 3-1/2 cu. yds. up to 7 cu. yds.; Licensed construction work boat operator, on site; Power blade operator (finish); Power shovels, over 1 cu. yd. up to and including 7 cu. yds. m.r.c.

GROUP 3: Asphalt milling machine; Cable backhoe; Combination backhoe and loader over 3/4 cu. yds.; Continuous flight tie back machine assistant to engineer or mechanic; Crane mounted continuous flight tie back machine, tonnage to apply; Crane mounted drill attachment, tonnage to apply; Dozer, slope brd; Gradall; Hydraulic excavator, up to 3 1/2 cu. yds.; Loader 4 cu. yds. and over; Long reach excavator; Multiple engine scraper (when used as push pull); Power shovels, up to and including 1 cu. yd.; Pre-stress wire wrapping machine; Side boom cat, 572 or larger; Track loader 4 cu. yds. and over; Wheel excavator (up to and including 750 cu. yds. per hour)

GROUP 4: Asphalt plant engineer/box person; Chicago boom; Combination backhoe and loader up to and including 3/4 cu. yd.; Concrete batch plant (wet or dry); Dozer and/or push cat; Pull-type elevating loader; Gradesetter, grade checker (GPS, mechanical or otherwise); Grooving and grinding machine; Heading shield operator; Heavy-duty drilling equipment, Hughes, LDH, Watson 3000 or similar; Heavy-duty repairperson and/or welder; Lime spreader; Loader under 4 cu. yds.; Lubrication and service engineer (mobile and grease rack); Mechanical finishers or spreader machine (asphalt, Barber-Greene and similar); Miller Formless M-9000 slope paver or similar; Portable crushing and screening plants; Power blade support; Roller

operator, asphalt; Rubber-tired scraper, self-loading (paddle-wheels, etc.); Rubber-tired earthmoving equipment (scrapers); Slip form paver (concrete); Small tractor with drag; Soil stabilizer (P & H or equal); Spider plow and spider puller; Tubex pile rig; Unlicensed construction work boat operator, on site; Timber skidder; Track loader up to 4 yds.; Tractor-drawn scraper; Tractor, compressor drill combination; Welder; Woods-Mixer (and other similar Pugmill equipment)

GROUP 5: Cast-in-place pipe laying machine; Combination slusher and motor operator; Concrete conveyor or concrete pump, truck or equipment mounted; Concrete conveyor, building site; Concrete pump or pumpcrete gun; Drilling equipment, Watson 2000, Texoma 700 or similar; Drilling and boring machinery, horizontal (not to apply to waterliners, wagon drills or jackhammers); Concrete mixer/all; Person and/or material hoist; Mechanical finishers (concrete) (Clary, Johnson, Bidwell Bridge Deck or similar types); Mechanical burm, curb and/or curb and gutter machine, concrete or asphalt); Mine or shaft hoist; Portable crusher; Power jumbo operator (setting slip-forms, etc., in tunnels); Screed (automatic or manual); Self-propelled compactor with dozer; Tractor with boom D6 or smaller; Trenching machine, maximum digging capacity over 5 ft. depth; Vermeer T-600B rock cutter or similar

GROUP 6: Armor-Coater (or similar); Ballast jack tamper; Boom-type backfilling machine; Assistant plant engineer; Bridge and/or gantry crane; Chemical grouting machine, truck-mounted; Chip spreading machine operator; Concrete saw (self-propelled unit on streets, highways, airports and canals); Deck engineer; Drilling equipment Texoma 600, Hughes 200 Series or similar up to and including 30 ft. m.r.c.; Drill doctor; Helicopter radio operator; Hydro-hammer or similar; Line master; Skidsteer loader, Bobcat larger than 743 series or similar (with attachments); Locomotive; Lull hi-lift or similar; Oiler, truck mounted equipment; Pavement breaker, truck-mounted, with compressor combination; Paving fabric installation and/or laying machine; Pipe bending machine (pipelines only); Pipe wrapping machine (tractor propelled and supported); Screed (except asphaltic concrete paving); Self-propelled pipeline wrapping machine; Soils & materials tester; Tractor; Self-loading chipper; Concrete barrier moving machine

GROUP 7: Ballast regulator; Boom truck or dual-purpose A-frame truck, non-rotating - under 15 tons; Truck-mounted rotating telescopic boom type lifting device, Manitex or similar (boom truck) - under 15 tons; Cary lift or similar; Combination slurry mixer and/or cleaner; Drilling equipment, 20 ft. and under m.r.c.; Firetender (hot plant); Grouting machine operator; Highline cableway signalperson; Stationary belt loader (Kolman or similar); Lift slab machine (Vagtborg and similar types); Maginnes internal full slab vibrator; Material hoist (1 drum); Mechanical trench shield; Pavement breaker with or without compressor combination); Pipe cleaning machine (tractor propelled and supported); Post driver; Roller (except asphalt); Chip Seal; Self-propelled automatically applied concrete curing machine (on streets, highways, airports and canals); Self-propelled compactor (without dozer); Signalperson; Slip-form pumps (lifting device for concrete forms); Tie spacer; Tower mobile; Trenching machine, maximum

digging capacity up to and including 5 ft. depth; Truck- type loader

GROUP 8: Bit sharpener; Boiler tender; Box operator; Brakeperson; Combination mixer and compressor (shotcrete/gunite); Compressor operator; Deckhand; Fire tender; Forklift (under 20 ft.); Generator; Gunite/shotcrete equipment operator; Hydraulic monitor; Ken seal machine (or similar); Mixermobile; Oiler; Pump operator; Refrigeration plant; Reservoir-debris tug (self- propelled floating); Ross Carrier (construction site); Rotomist operator; Self-propelled tape machine; Shuttlecar; Self-propelled power sweeper operator (includes vacuum sweeper); Slusher operator; Surface heater; Switchperson; Tar pot firetender; Tugger hoist, single drum; Vacuum cooling plant; Welding machine (powered other than by electricity)

GROUP 8-A: Elevator operator; Skidsteer loader-Bobcat 743 series or smaller, and similar (without attachments); Mini excavator under 25 H.P. (backhoe-trencher); Tub grinder wood chipper

ALL CRANES AND ATTACHMENTS

GROUP 1: Clamshell and dragline over 7 cu. yds.; Crane, over 100 tons; Derrick, over 100 tons; Derrick barge pedestal-mounted, over 100 tons; Self-propelled boom-type lifting device, over 100 tons

GROUP 2: Clamshell and dragline over 1 cu. yd. up to and including 7 cu. yds.; Crane, over 45 tons up to and including 100 tons; Derrick barge, 100 tons and under; Self-propelled boom-type lifting device, over 45 tons; Tower crane

GROUP 3: Clamshell and dragline up to and including 1 cu. yd.; Cranes 45 tons and under; Self-propelled boom-type lifting device 45 tons and under; Boom Truck or dual purpose A-frame truck, non-rotating over 15 tons; Truck-mounted rotating telescopic boom type lifting device, Manitex or similar (boom truck) over 15 tons;

PILEDRIVERS

GROUP 1: Derrick barge pedestal mounted over 100 tons; Clamshell over 7 cu. yds.; Self-propelled boom-type lifting device over 100 tons; Truck crane or crawler, land or barge mounted over 100 tons

GROUP 2: Derrick barge pedestal mounted 45 tons to and including 100 tons; Clamshell up to and including 7 cu. yds.; Self-propelled boom-type lifting device over 45 tons; Truck crane or crawler, land or barge mounted, over 45 tons up to and including 100 tons; Fundex F-12 hydraulic pile rig

GROUP 3: Derrick barge pedestal mounted under 45 tons; Self-propelled boom-type lifting device 45 tons and under; Skid/scow piledriver, any tonnage; Truck crane or crawler, land or barge mounted 45 tons and under

GROUP 4: Assistant operator in lieu of assistant to engineer; Forklift, 10 tons and over; Heavy-duty repairperson/welder

GROUP 5: Deck engineer

GROUP 6: Deckhand; Fire tender

STEEL ERECTORS

GROUP 1: Crane over 100 tons; Derrick over 100 tons; Self-

propelled boom-type lifting device over 100 tons
GROUP 2: Crane over 45 tons to 100 tons; Derrick under 100 tons; Self-propelled boom-type lifting device over 45 tons to 100 tons; Tower crane
GROUP 3: Crane, 45 tons and under; Self-propelled boom-type lifting device, 45 tons and under
GROUP 4: Chicago boom; Forklift, 10 tons and over; Heavy-duty repair person/welder
GROUP 5: Boom cat

TUNNEL AND UNDERGROUND WORK

GROUP 1-A: Tunnel bore machine operator, 20' diameter or more
GROUP 1: Heading shield operator; Heavy-duty repairperson; Mucking machine (rubber tired, rail or track type); Raised bore operator (tunnels); Tunnel mole bore operator
GROUP 2: Combination slusher and motor operator; Concrete pump or pumpcrete gun; Power jumbo operator
GROUP 3: Drill doctor; Mine or shaft hoist
GROUP 4: Combination slurry mixer cleaner; Grouting Machine operator; Motorman
GROUP 5: Bit Sharpener; Brakeman; Combination mixer and compressor (gunite); Compressor operator; Oiler; Pump operator; Slusher operator

above the applicable wage rate. This shall not apply to
workers entitled to receive the wage rate set forth in

Group 1-a below.

LABORER CLASSIFICATIONS

CONSTRUCTION SPECIALIST GROUP: Asphalt ironer and raker; Chainsaw; Laser beam in connection with laborers' work; Cast-in- place manhole form setter; Pressure pipelayer; Davis trencher - 300 or similar type (and all small trenchers); Blaster; Diamond driller; Multiple unit drill; Hydraulic drill

GROUP 1: Asphalt spreader boxes (all types); Barko, Wacker and similar type tampers; Buggymobile; Caulker, bander, pipewrapper, conduit layer, plastic pipelayer; Certified hazardous waste worker including Leade Abatement; Compactors of all types; Concrete and magnesite mixer, 1/2 yd. and under; Concrete pan work; Concrete sander; Concrete saw; Cribber and/or shoring; Cut granite curb setter; Dri-pak-it machine; Faller, logloader and buckler; Form raiser, slip forms; Green cutter; Headerboard, Hubsetter, aligner, by any method; High pressure blow pipe (1-1/2" or over, 100 lbs. pressure/over); Hydro seeder and similar type; Jackhammer operator; Jacking of pipe over 12 inches; Jackson and similar type compactor; Kettle tender, pot and worker applying asphalt, lay-kold, creosote, lime, caustic and similar type materials (applying means applying, dipping or handling of such materials); Lagging, sheeting, whaling, bracing, trenchjacking, lagging hammer; Magnesite, epoxyresin, fiberglass, mastic worker (wet or dry); No joint pipe and stripping of same, including repair of voids; Pavement breaker and spader, including tool grinder; Perma curb; Pipelayer (including grade checking in connection with pipelaying); Precast-manhole setter; Pressure pipe tester; Post hole digger, air, gas and electric; Power broom sweeper; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap stonepaver and rock-slinger, including placing of sacked concrete and/or sand (wet or dry) and gabions and similar type; Rotary scarifier or multiple head concrete chipping scarifier; Roto and Ditch Witch; Rototiller; Sandblaster, pot, gun, nozzle operators; Signalling and rigging; Tank cleaner; Tree climber; Turbo blaster; Vibrascreed, bull float in connection with laborers' work; Vibrator; Hazardous waste worker (lead removal); Asbestos and mold removal worker

GROUP 1-a: Joy drill model TWM-2A; Gardner-Denver model DH143 and similar type drills; Track driller; Jack leg driller; Wagon driller; Mechanical drillers, all types regardless of type or method of power; Mechanical pipe layers, all types regardless of type or method of power; Blaster and powder; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (including drilling of same); Tree toppler; Bit grinder

GROUP 1-b: Sewer cleaners shall receive \$4.00 per day above Group 1 wage rates. "Sewer cleaner" means any worker who handles or comes in contact with raw sewage in small diameter sewers. Those who work inside recently active, large diameter sewers, and all recently active sewer

manholes shall receive \$5.00 per day above Group 1 wage rates.

GROUP 1-c: Burning and welding in connection with laborers' work; Synthetic thermoplastics and similar type welding

GROUP 1-d: Maintenance and repair track and road beds. All employees performing work covered herein shall receive \$

.25 per hour above their regular rate for all work

performed on underground structures not specifically

covered herein. This paragraph shall not be construed to

apply to work below ground level in open cut. It shall

apply to cut and cover work of subway construction after

the temporary cover has been placed.

GROUP 1-e: Work on and/or in bell hole footings and shafts

thereof, and work on and in deep footings. (A deep footing

is a hole 15 feet or more in depth.) In the event the

depth of the footing is unknown at the commencement of

excavation, and the final depth exceeds 15 feet, the deep

footing wage rate would apply to all employees for each and

every day worked on or in the excavation of the footing

from the date of inception.

GROUP 1-f: Wire winding machine in connection with guniting

or shot crete

GROUP 1-g, CONTRA COSTA COUNTY: Pipelayer (including grade

checking in connection with pipelaying); Caulker; Bander;

Pipewrapper; Conduit layer; Plastic pipe layer; Pressure

pipe tester; No joint pipe and stripping of same, including

repair of voids; Precast manhole setters, cast in place

manhole form setters

GROUP 2: Asphalt shoveler; Cement dumper and handling dry

cement or gypsum; Choke-setter and rigger (clearing work);

Concrete bucket dumper and chute; Concrete chipping and

grinding; Concrete laborer (wet or dry); Driller tender,

chuck tender, nipper; Guinea chaser (stake), grout crew;

High pressure nozzle, adductor; Hydraulic monitor (over 100

lbs. pressure); Loading and unloading, carrying and hauling

of all rods and materials for use in reinforcing concrete

construction; Pittsburgh chipper and similar type brush

shredders; Sloper; Single foot, hand-held, pneumatic

tamper; All pneumatic, air, gas and electric tools not

listed in Groups 1 through 1-f; Jacking of pipe - under 12

inches

GROUP 3: Construction laborers, including bridge and general

laborer; Dump, load spotter; Flag person; Fire watcher;

Fence erector; Guardrail erector; Gardener, horticultural

and landscape laborer; Jetting; Limber, brush loader and

piler; Pavement marker (button setter); Maintenance, repair

track and road beds; Streetcar and railroad construction

track laborer; Temporary air and water lines, Victaulic or

similar; Tool room attendant (jobsite only)

GROUP 4: Final clean-up work of debris, grounds and building

including but not limited to: street cleaner; cleaning and

washing windows; brick cleaner (jobsite only); material

cleaner (jobsite only). The classification "material

cleaner" is to be utilized under the following conditions:

A: at demolition site for the salvage of the material.

B: at the conclusion of a job where the material is to be

salvaged and stocked to be reused on another job.

C: for the cleaning of salvage material at the jobsite or

temporary jobsite yard.

The material cleaner classification should not be used in the performance of "form stripping, cleaning and oiling and moving to the next point of erection".

GUNITE LABORER CLASSIFICATIONS

GROUP 1: Structural nozzle operator

GROUP 2: Nozzle operator (including gun, pot); Ground person

GROUP 3: Rebound

GROUP 4: Guniting laborer

WRECKING WORK LABORER CLASSIFICATIONS

GROUP 1: Skilled wrecker (removing and salvaging of sash, windows and materials)

GROUP 2: Semi-skilled wrecker (salvaging of other building materials)

GROUP 3: General laborer (includes all clean-up work, loading lumber, loading and burning of debris)

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
